## TELEPHONE STATEMENT ISSUED.

Two Hundred Fifty-six Companies.  
Total Valuation \$190,278.50.

Guthrie, Ok.—The annual state-  
ment of the taxable property of 256  
telephone companies in Oklahoma,  
which are now on file in the office of  
State Auditor M. E. Trapp, show a  
total valuation of \$190,278.50 as  
placed by the officers of the com-  
panies.

The mileage of these companies  
amounts to 10,184.96 miles.

The gross receipts for the year  
ending Jan. 1, 1908, from what-  
ever source derived in the state of  
eighty-two of the 256 companies re-  
porting amounts to \$61,696.27. A  
large number of the companies are  
mutual and rural corporations, oper-  
ating only for the convenience of the  
subscribers and deriving no re-  
venue.

Each telephone company's report  
shows the total amount of mileage  
in each township, school district and  
county in which it is operated and the  
valuation of the property as placed  
by the officer who prepares the re-  
port.

It is believed that fully 200 tele-  
phone companies have not reported,  
the amount of their taxable property.  
All telephone companies, as well as  
all public service corporations, are  
required by law to file a statement of  
the taxable property with the Au-  
ditor.

To all such companies blanks are  
now being furnished upon which to  
submit their statement.

## MINERS WAIT CONTRACTS' END.

As Agreements Expire on Last Day of  
March Men Are Glad to  
Cease Work.

McAlester, Ok.—No formal order  
will be issued by the presidents of the  
several districts of the United  
Mine Workers of America here, but as  
all contracts expire on the last  
day of this month, work will cease.  
After that time an order may issue  
to the miners that as they have no  
contract, they will cease from work  
until one is reached. The miners,  
operators and business men here have  
generally accepted the statement that  
there will be no work after next  
Tuesday evening.

Hope has been freely expressed  
throughout this mining region that  
both sides had exhausted their bluff  
and that they would get together.  
This has been dispelled by the action  
of the Indianapolis meeting, and all  
are satisfied that every mine in the  
district will be closed.

Many of the miners are preparing  
to go to Italy on a sixty or ninety-  
day vacation, expecting everything to  
be settled by that time. Every manufac-  
turing and other steam plant in this  
section has stored a supply of coal.

The Rock Island road has 18,000  
tons in one pile at Haterville.
